

Anthony J. Annunziata

Associate Director, IBM Q, IBM

Yale Applied Physics PhD (GRD '10)

April 25, 2018 at 1:00 p.m. in WL-216

Quantum Computing and Business

Join the YPPDO for a presentation by Anthony J. Annunziata, IBM, where he will reflect on his career development and research opportunities at IBM and in industry. Dr. Annunziata received a B.A. in Physics from Colgate University and a Ph.D. in Applied Physics from Yale University in 2010 with Prof. Daniel Prober specializing in single-photon detectors based on superconducting nanowires. After graduation, he joined IBM as a post-doc research scientist. During his 8 years at IBM, he led research projects on nanophysics and material science. He is experienced with technical leadership and business management. He is currently the associate director of IBM Q, a startup inside IBM developing quantum computers for business and science.

Host: Wen Xiong, YPPDO

Lunch is served in WLC-245 starting at 12:30 p.m. RSVP requested.

Sponsored by the Yale Wright Laboratory and the Yale Physics Department.
